

GET CONTROL OF YOUR **ENERGY**

AND BUILD TRUST WITH
YOUR CUSTOMERS

Targeted, Predictive Performance

- Tightly controlled GRAS coating materials
- Specified payload
- Pharma modeling techniques employed
- Tightly controlled dissolution specs
- High physical quality ingredients
- Ability to design your energy profile

Developed by leading biochemists, zümXR® Targeted Release Caffeine delivery systems represent new benchmarks in controlled, targeted and sustained release for supplements, functional foods and energy drinks. It's a major leap forward from conventional caffeine coatings technologies. With this technology, you can design your own energy profiles in products that your customers will experience – and keep coming back for more.

ENERGY

DESIGN AN ENERGY PROFILE YOUR CUSTOMERS WILL EXPERIENCE

Today, PLT Health Solutions offers three different targeted release caffeine ingredients:

Extended Release

- All Day energy
- Long lasting sports (endurance)
- Long study sessions
- Workplace
- Combination energy products

Delayed Release

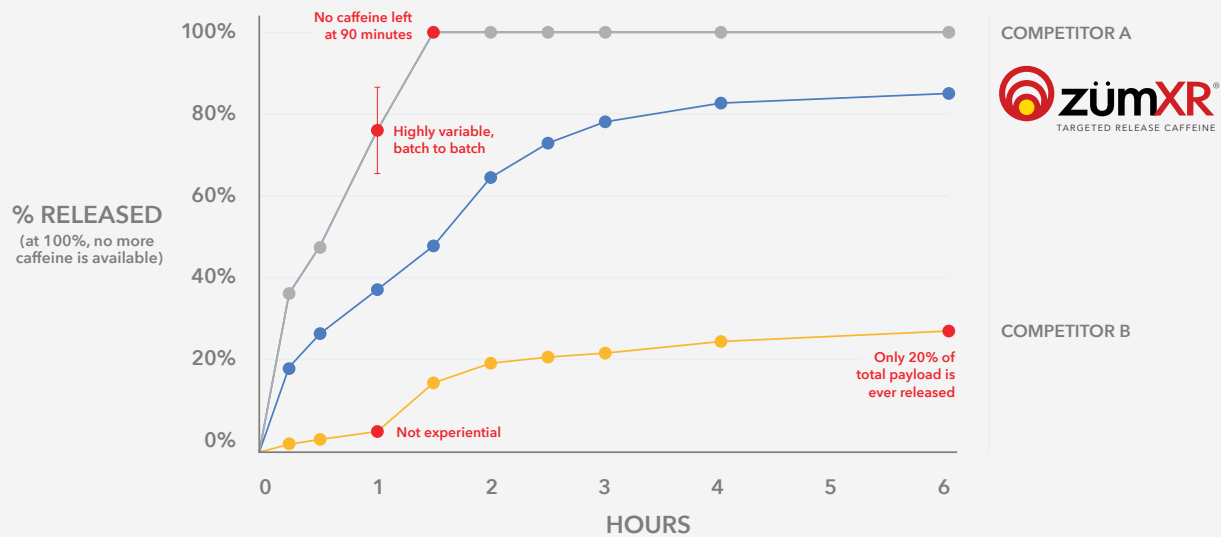

- Combination energy products
- Pre-workout
- Intra-workout
- Endurance activities (2+ hours)

Extended Release Liquid-Stable

- Perfect for 'shot' sized & non-heated products
- Predictable energy profile
- Visually appealing
- Excellent mouthfeel

A DISSOLUTION PROFILE COMPARISON

zümXR delivers tightly controlled, true extended release in test after test

The tightly controlled specifications of zümXR® Targeted Release Caffeine mean your customers get the experience that you promise in your product – helping to build trust, your brand and repeat sales.
