Naturally produced by bees, propolis has been used for millennia to promote human health and wellness. PROMUNEL[®] Ultra-Performance Propolis takes this sustainable, nature-based material to the next level, delivering the world's highest quality propolis via a unique, patented extraction process that yields an extract with unmatched consistency and purity. PROMUNEL is the first standardized propolis extract, with six marker polyphenols known to support immune function.

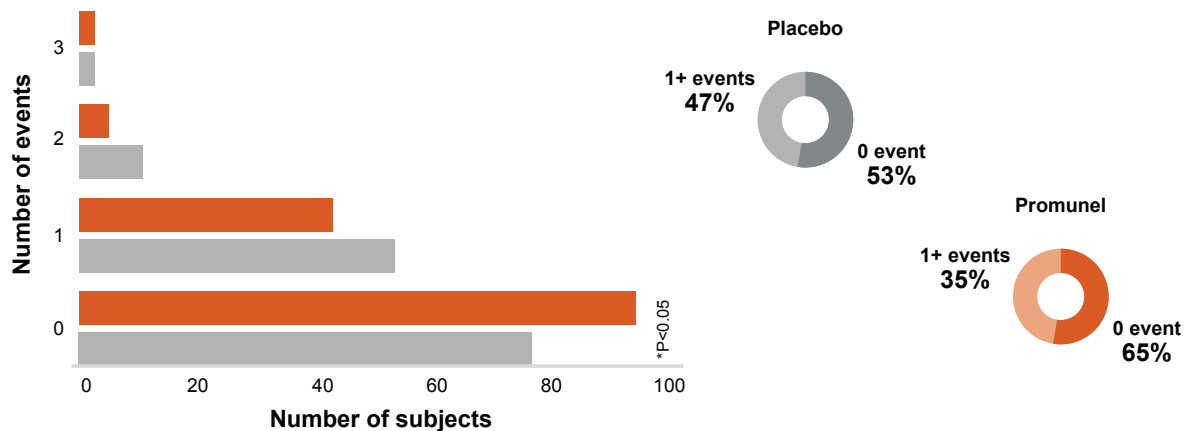

Two double-blind placebo-controlled clinical studies have demonstrated the efficacy of PROMUNEL in reducing the incidence, severity and duration of cold-related symptoms. If you are looking for a new take on providing immune health support, PROMUNEL can help your products stand out.

TWO CLINICAL TRIALS SUPPORT PROMUNEL EFFICACY

PROMUNEL has been the subject of two double-blind clinical trials. In the second clinical study, 295 healthy adults received either 400 mg/day (200 mg twice per day) or placebo for 12 weeks during the Autumn to Spring season. PROMUNEL supplementation reduced the incidence of upper respiratory discomfort by 26%. It also reduced the risk of experiencing discomfort by 31% and the number of symptomatic days by 34%.
